Austin, TX | priya.patel@email.com | (555) 345-6789 | linkedin.com/in/priyapatel-tech | github.com/priyapatel

OBJECTIVE

Motivated Computer Science graduate seeking an Entry-Level Machine Learning or Data Science role. Strong foundation in Python, data structures, and statistical analysis with academic project experience in scikit-learn and exploratory data analysis.

EDUCATION

Bachelor of Science in Computer Science

University of Texas at Austin | Graduated May 2024

GPA: 3.8/4.0

TECHNICAL SKILLS

• Programming Languages: Python, C++, SQL, HTML, CSS

• Libraries & Tools: Pandas, NumPy, scikit-learn, Git, Jupyter, Matplotlib

• Core Concepts: Object-Oriented Programming, Data Structures, Algorithms, Linear Algebra, Statistics

• Soft Skills: Problem Solving, Analytical Skills, Communication, Teamwork

ACADEMIC PROJECTS

• Housing Price Predictor (Python, scikit-learn, Pandas):

Built linear regression and decision tree models to predict home prices using Ames dataset. Handled missing data, categorical encoding, and evaluated RMSE.

• Student Performance Analysis (Python, Pandas, Matplotlib):

Cleaned and visualized academic datasets to uncover correlations between study habits and exam results.

• Portfolio Website (HTML, CSS, JavaScript):

Designed personal responsive website hosted on GitHub Pages.

EXPERIENCE

Undergraduate Teaching Assistant | UT Austin | 2023 – 2024

• Assisted 80+ students in Intro to Programming with Python; conducted lab sessions and graded assignments.
