SUMMARY

Full Stack Developer with 4 years of experience crafting scalable web applications, RESTful microservices, and interactive UI systems. Proficient in TypeScript, React, Node.js, Next.js, and PostgreSQL. Passionate about clean code, component architecture, and cloud deployment.

TECHNICAL SKILLS

- Languages: JavaScript, TypeScript, Python, HTML, CSS, SQL
- Frontend: React, Next.js, Tailwind CSS, Redux, Vite, HTML5, CSS3
- Backend: Node.js, Express, FastAPI, REST API, GraphQL
- Databases: PostgreSQL, MongoDB, Redis
- Cloud & Tools: Docker, Git, GitHub Actions, CI/CD, AWS, Postman, Jest, Unit Testing

EXPERIENCE

Senior Frontend / Full Stack Engineer | CloudScale Inc. | 2022 – Present

- Built a customer-facing enterprise portal using React 18, TypeScript, and Tailwind CSS serving 150k monthly active users.
- Developed backend services in Node.js and Express with PostgreSQL and Redis caching, achieving 99.9% uptime.
- Migrated legacy monolithic architecture to Next.js with server-side rendering, improving Core Web Vitals and SEO rankings by 35%.
- Implemented automated CI/CD testing suites using Jest and GitHub Actions.

Software Developer | WebCraft Studios | 2020 – 2022

- Developed modern responsive web applications using React, JavaScript, and Node.js.
- Created REST APIs and integrated Stripe payment processing and third-party webhooks.

EDUCATION

Bachelor of Science in Software Engineering

University of Washington | 2016 – 2020

PROJECTS

- DevPulse Analytics: Real-time dashboard for developer metrics built with React, Vite, Tailwind CSS, Node.js, and PostgreSQL.
- TaskMatrix: Collaborative project management tool featuring real-time synchronization, WebSockets, and Redis.
